

# duck2water online car insurance is a doddle

**Online car insurance needn't be intimidating. It can actually be quite a relaxing experience.**

We know how many motor insurance firms there are out there; we understand that those ads on the TV tell you all sorts of stuff about their company, but as an online car insurance provider we offer you things those big companies can't, so we are giving you the chance to shop with duck2water and get a cheap motor insurance quote today.

**Online car insurance from duck2water is better because...**

- it saves you money
- it's quick
- it's hassle free
- it's safe
- it's a lot simpler than you think it's going to be

## **The proof of the car insurance pudding**

Many people are sceptical about how difficult it might be to use an online car insurance company.

The bottom line is, I can do it and so can you.

You click on the 'get a quote now' button and it quickly takes you through a couple of screens. Then you just fill in the relevant boxes.

You will need to know your personal details, additional driver details, your vehicle registration number and how much no-claims bonus you currently have.

That's all you need. You fill in the boxes and it even prompts you if you've made a mistake. I was expecting a plethora of complicated stuff (including my mother's maiden name), but I was very pleasantly surprised. In a matter of seconds you will be offered a selection of the best quotes that our system will have found.

Each quote tells you clearly what is included, such as audio cover and windscreen cover, so you can tell instantly which quote suits your needs best.

## **Free car insurance goodies from duck2water**

Every duck2water quote comes with breakdown cover and legal expenses insurance as standard.

### **Breakdown cover**

We have teamed up with a top roadside assistance company to offer you a free breakdown cover package so that you can keep on motoring in the stress free knowledge that if you break down, one phone call is all you need to have a fully qualified mechanic coming to get you back on the road.

### **Legal expenses cover**

If you are involved in a non-fault road traffic accident you may well suffer injury and distress; you may also have to take time off work, thus losing out financially. Duck2water gives you up to £50,000 of legal expenses insurance, so that we can quickly provide you with a personal injury solicitor who will make a compensation claim from the at-fault driver's insurance company. Other car insurance companies can charge up to £50 for this. At duck2water we believe you should never be out of pocket because of someone else's negligence, so we give you this cover for free.

## **Are you still unsure about online car insurance?**

Here are a few more reasons why online car insurance is right for you.

### **Speed**

Searching for a quote online needn't be a time consuming pain in the neck. At duck2water you fill in your details once and we check quotes from over thirty insurers. Our system then picks out the best ones within moments and all you have to do is select the quote that suits you best.

We have the newest quickest technology built into our website, so if your broadband can keep up with us you'll have your quotes in the blink of an eye.

### **Security**

You needn't worry about other people seeing your personal details on the duck2water website. We use a 128 bit Secure Socket Layer that encrypts your details so they cannot be copied by anyone outside our site.

To ensure the security of each page, check for the padlock symbol at the bottom of your web browser. The symbol will appear on any pages where your personal details are required.

### **Privacy**

Some companies arbitrarily use your details for marketing purposes and suddenly you can find your email inbox full of spam messages from companies you have never heard of and want nothing to do with.

At duck2water your details are not used unless you specify that you wish to receive marketing messages from us. If you don't want to that's fine. We keep your details safe and never pass them on.
